

# Lemonade

Leo is going lemon picking at the weekend with his dad.

He is going to the lemon grove by the lake.

They are going to get lemons to make lemonade.

It takes ten lemons to make the lemonade.

At the grove Leo picked six lemons and his dad picked four.

It was a hot day and they are ready to make lemonade.

1. Where is Leo going?

.....

2. Why are they picking lemons?

.....

3. How many lemons do they need?

.....

4. What day do you think they went to the lemon grove?

.....
